## ADDITIONAL TELEGRAPH NEWS

### FIRST DETACHMENT RELIEVED IN TRENCHES

(Associated Press by U. S. Naval Wireless.) **AMERICAN FRONT IN FRANCE**, Nov. 2.—Yesterday the first American battalions to undergo the experience of holding a sector of the French front were withdrawn from the trenches and their places taken by fresh American troops. The critical maneuver of relieving the men and stationing new battalions in their place was carried through successfully.

The experience gained by the officers in command of the two detachments, those now in the trenches and those just relieved, is regarded a valuable experience. The casualties received by the Americans so far have been negligible, although a number of the men from the trenches are suffering from their first experience with "trench feet," something which placed thousands of the unseasoned British on the hospital list in their early experiences of trench warfare.

### SERIOUS STRIKE IN TEXAS OIL FIELDS

**HOUSTON, Texas, Nov. 2.**—Strike leaders last night declared that they had information indicating success of the strike which had been ordered in the oil fields. They said they were advised that 10,000 workmen had walked out in the sixteen oil fields in which the strike had been called. There are ample funds in the union treasury to finance the strike, they said.

It is not expected that the strike will be permitted to run its course. Government intervention with arbitration proposals is expected to bring about an early return to work.

### CABINET MINISTERS DECLARE FOR SUFFRAGE

Yesterday Secretary of the Interior Lane, Secretary of Agriculture Houston, Secretary of the Treasury McAdoo, and Secretary of Commerce Redfield made public announcement of their decision to support the campaign for state indorsement of the constitutional and for state legislation enfranchising women.

### U. S. CONGRESSMEN SEE HUN RAID ON LONDON

(Associated Press by U. S. Naval Wireless.) **LONDON, ENG., Nov. 2.**—United States Senators Kendrick and Kenyon, who remained here when the rest of the congressional party went to France, underwent their second experience of air raids in London in the attack which was made by Hun aircraft Thursday night. Neither of them were hurt and both of them were yesterday warm in their praises of the fortitude which the Britons show in the face of the perils to which they are thus subjected, and bitter in their denunciation of the Hun policy of carrying on warfare upon non-combatants, especially women and little children.

Advice from Paris said that the visiting congressional party yesterday visited the tomb of Lafayette and placed wreaths as a tribute to his memory and a mark of the reverence in which it is held by all patriotic Americans.

Further progress in the reorganization of the cabinet was the acceptance of Helfferich as president of the food board in place of von Walldow, resigned.

As yet von Cappelles has not accepted the portfolio tendered him and it is considered doubtful that he will.

## FRISCO TO TRY NEW SYSTEM OF ELECTION NOV. 6

(By Associated Press)  
**SAN FRANCISCO, Oct. 22.**—This city will try a new system of electing its officials November 6. It is called the preferential system.

The preferential system of voting will be used in places which consisted of a primary election followed later by a general election. This system also provides for a choice of a majority of the voters. In order to be elected as a first or second choice the candidates must receive a majority of all the votes cast.

This system also does away with the unnecessary and excessive physical strain of being compelled to pass through two election campaigns, one to get the nomination and the other to secure election. Also the great length of the combined campaigns is unnecessarily burdensome to both voters and candidates. Also announcement of the primary returns enables the least favored candidates to combine their strength at the general election against the more popular candidates and thus accomplish defeat—sometimes by unfair means. Also the expense of two elections under the present system necessitates a large and useless waste of public money; already this year the city has been saved \$70,000 by the adoption of the preferential system.

To obtain an office in the municipal government under the present charter necessitates a physical and nervous strain upon the candidate who successfully passes the ordeal of the primary election which many citizens are unwilling to endure, while the financial strain is necessarily double.

If a candidate has a business when he starts in which needs personal attention to keep it alive, he is pretty sure not to have any when the second campaign is over.

It is also quite evident that the double election system has a growing tendency to weary the voter by requiring him to go to the polls twice on the same issue, instead of once; while the prolongation of the political wrangle carried on during the double campaign is, to say the least, a public nuisance.

The preferential system of voting is in operation in a number of cities of the United States and in this State.

At the primary election held September 23, 1915, 119,105 citizens voted, and at the general election held six weeks later, November 3, 1915, 83,297 citizens voted; 35,908 voters who voted at the primary failed to vote at the general election. There was at this time 180,204 citizens registered and entitled to vote—less than 50 per cent of the registration.

The preferential system of voting will cut the cost of elections about one-third. Four election officers are used instead of six, as under the double system of two elections, where two officers were used, six at each election.

The ballot for the election to be held November 6, 1917 will be the smallest ballot used at any municipal election.

The ballot is in all respects the same as the ballot heretofore used at municipal elections with the addition of two columns for voting the second and third choices.

The voter, when receiving the ballot first at the polls, will go to one of the compartments, take the rubber cross and mark opposite the candidate preferred as a first choice, in the first column. Second choice, if any, in the second column and third choice in the third column. If the voter has no second or third choice he is not by law compelled to vote second or third choice, but it is his privilege.

The count, for the first time, will be conducted by the department of elections, under the supervision of the registrar of voters at the city hall. All returns will be delivered by the election boards and the count will begin shortly after 7 o'clock p. m. on the day of the election. Three hundred and fifty precincts will be counted at one time.

Every hour during the count the public will be advised as to the progress of the count. It is expected the count will be finished early November 7th.
